Campus Recruitment Training (C R T)

For the Vijaya Institute of Pharmaceutical Sciences for Women Students:

Campus Recruitment Training (C R T) is a specially designed campus interview module for pre-final and final year graduate students. Our teams of experts have studied the recruitment process of Industries such as *Pharma, IT, ITeS, Banking, Telecom, Automobile, FMCG, and Hotel*, and have used this to design a curriculum which will help your students be better prepared for their placement process.

As the students near the end of their course, their technical acumen would have been perfected by their college. Students now need to hone their aptitude and personality. To navigate the hurdles of the various methods in selection process like Psychometric test, M.R Round, Extempore, JAM, Mock Press, GD and PI, aspirants must know the process and what is required. Campus Recruitment Training (C R T), from *Future Wise's* program helps you:

- ❖ To assist the learner identify, analyze, introspect and understand one's own personality traits so that they can answer confidently and concisely with complete understanding.
- ❖ To give the learner a platform to express their ideas freely, listen to others patiently, come forward with rational ideas and emerge as a well rounded personality.
- ❖ To help students outline the purpose of presentation, understand the group's needs, establish rapport with the group, maintain poise and answer queries convincingly.
- ❖ To equip learners with skills that help them conduct themselves appropriately and bring in a holistic change in them to face the world with confidence.
- ❖ To empower the students with enhanced vocabulary and help them to handle complex situations through apt and impressive expressions.

Future Wise, Gannavaram organized a certificate programme on **Campus Recruitment Training (CRT)** for IVth B. Pharmacy students by the resource person **Mr. L. V. Gangadhara Rao** from **29th June 2015 to 25th July 2015**. Campus Recruitment Training (CRT) program which is exclusively designed for the students preparing for recruitment and is geared towards ensuring that the students are well equipped to get through the recruitment process of various pharma and non-pharma companies by gathering the inputs from the job-seekers and placement-providers. Totally 83 students participated in this training course. All the students participated enthusiastically and after the completion of the course the students were able to understand the following objectives and learning outcomes.

Objectives:

1. Preparedness to become suitable to pharma and non - pharma jobs.
2. Graduates have to enhance their employability skills before leaving educational institutions.
3. To bridge the gap between industry and university.
4. To develop confidence, communication skills, teamwork (how you manage and engage fellow participants) and technical knowledge of the subject.

Learning Outcomes:

1. Understand organizational procedures and policies as related to how the employers process for campus recruitment and employer preferences.
2. Use self-assessments to identify strengths, weaknesses, transferable skills, and prime marketable characteristics.
3. Organize and write an effective cover letter and Resume.
4. Exercise judgment and logical decision making in selecting from alternative techniques for Group Discussion & Interview.

This course was very much informative to the students and their feedback was positive. Dr. K. Padmalatha, Principal of VIPW thanked the resource person **Mr. L. V. Gangadhara Rao** and participants for making the program successful.

PROGRAMME OBJECTIVES :

Statistical Analysis System (SAS), a software system for data analysis and report writing. SAS is a group of computer programs that work together to store data values and retrieve them, modify data, compute simple and complex statistical analyses, and create reports. SAS can be used through the SAS Analyst drop down menus, or by writing one's own code for maximum flexibility in performing complex analyses.

1. Role of SAS programmers in Clinical Research.
2. Data validation techniques using SAS
3. Integrate Clinical SAS Data and Metadata
4. Data transformations
5. Advanced concepts including SAS SQL, SAS GRAPH.

Genesys Academy was formed on 09th of May 2012 (First Institution of its kind in Andhra Pradesh) with a view of providing world class training for various courses in the Pharma Industries and Life sciences. After a complete research for over 1 year the team of Genesys, it was found that there was a major gap between the College and the industry requirement. In order to bridge the gap, it is needing that the student as a fresher need to be industry ready and take up the challenges as per the industries need. So, we designed various tailor-made courses that suits the industry needs and prepares everyone, to take up the challenges.

Genesys academy is associated with **Vijaya Institute of Pharmaceutical Sciences for Women (VIPW)** since 2014. In the academic year 2015-2016 we have conducting training sessions on SAS and Clinical Data Management for B.Pharm students during 1st August 2015 to 30th September 2015 i.e. for a period 60 days. Computer labs were also conducted for SAS programming and Clinical Data Management practice during this period.

Curriculum Design for Statistical Analysis System (SAS):

S.No.	Topics	Hours
1	Introduction to Clinical Research process, Drug Development process, Phases of Clinical Research, Industry regulations and standards for Clinical Trials, Departments and roles in a CRO	2
2	History and Introduction to SAS, Role of Statistical Analysis in Clinical Research Study, SAS role in Clinical Research Study, Protocol study, Randomization and Non-randomization, SOP, About DBMS, CDM, SAP in Clinical Research Study	2
3	SAS work flow in Clinical Research Study, Relation between SAS and DBMS, SAS with CDM, CDISC Data models (SDTM, ADM etc.), SAS Report generation in Clinical Research Study	2
4	SAS system overview, working in the SAS environment, Basics of SAS including data and proc step, structure of the data set, variables and attributes, basic rules of writing SAS programs, basic rules to define variable and data set names, SAS windows, keyboard shortcuts	2
5	Reading raw data using Input Styles (List, Modifiers of List, Column)	2
6	Reading raw data using Input Styles (Format with pointer controls including column pointer control, line pointer control and line hold pointer control, Mixed and Named input styles)	2
7	SAS system options, Title and footnote statements, comments	2
8	Data Step processing (PDV, Debugging SAS Code, Error, Warning, Notes in SAS log)	2
9	Referencing a SAS data library using libname statement, reading external files and engines using filename statement (clipboard, DDE, Excel, Access)	2

Genesys Academy, Vijayawada organized a certificate program on **Statistical Analysis System (SAS)** for IVth B. Pharmacy students by the resource person **Mr. Varaha Kumar** from 1st August 2015 to 30th September 2015. This program was designed to provide knowledge on clinical trial data analysis using Statistical Analysis System (SAS). Totally 83 students participated in this certificate program. All the students actively participated. Upon completion of the program the students were able to understand the following objectives and learning outcomes.

Objectives:

1. Role of SAS programmers in Clinical Research.
2. Enhance table relationships using indexes, views and integrity constraints.
3. Data transformations.
4. Integrate Clinical SAS Data and Metadata.
5. Quality control, Compliance and auditing in Clinical Research.

Learning Outcomes:

1. Understanding the basics of SAS including variables, attributes and datasets, writing SAS programs and SAS environment in windows.
2. Exporting data to different file formats using statements and exporting methods.
3. Handling errors and debugging SAS programs.

4. Creating Tables, Listings and Graphs (TLG) using different SAS procedures.
5. Data validation techniques using SAS.

This program was very much informative to the students and their feedback was positive about the program. The management and Principal Dr. K. Padmalatha thanked the resource person Mr. Varaha Kumar and participants for their constant effort throughout the programme.

PROGRAMME OBJECTIVES :

Clinical data management (CDM) plays an essential role in the data collection phase of clinical research. The process of collecting and managing research data is done in accordance with regulatory standards to obtain quality information that is complete and error-free; the goal is to gather as much of such data for analysis as possible.

1. Database Validation, Data Entry Processes
2. Database Lock, Clinical Data Archiving, and Data Storage
3. FDA Guidance's, Protocol Review, and Data Management
4. Case Report Form Design and Edit Check Creation
5. Electronic Data Capture: Selecting an Application, Implementing the System, and Study Conduct

Genesys Academy was formed on 09th of May 2012 (First Institution of its kind in Andhra Pradesh) with a view of providing world class training for various courses in the Pharma Industries and Life sciences. After a complete research for over 1 year the team of Genesys, it was found that there was a major gap between the College and the industry requirement. In order to bridge the gap, it is needed that the student as a fresher need to be industry ready and take up the challenges as per the industries need. So, we designed various tailor-made courses that suits the industry needs and prepares everyone, to take up the challenges.

Genesys academy is associated with **Vijaya Institute of Pharmaceutical Sciences for Women (VIPW)** since 2014. In the academic year 2015-2016 we have conducted training sessions on SAS and Clinical Data Management for B.Pharm students during 1st August 2015 to 30th September 2015 i.e. for a period 60 days. Computer labs were also conducted for SAS programming and Clinical Data Management practice during this period.

Curriculum Design for Clinical Data Management:

S.No.	Topics	Hours
1	Introduction to Clinical Research, Roles and responsibilities of key stakeholders	3
2	Preparations, Planning for Clinical Trials and Essential Documentation in Clinical Research & Regulatory Submissions	3
3	Introduction to Data, Databases and Clinical Data Management	3

Genesys Academy, Vijayawada organized a certificate program on **Clinical Data Management (CDM)** for IVth B. Pharmacy students by the resource person **Mr. Varaha Kumar** from **1st August 2015 to 30th September 2015**. Clinical Data Management (CDM) is a critical phase in clinical research, which leads to generation of high-quality, reliable, and statistically sound data from clinical trials. This helps to produce a drastic reduction in time from drug development to marketing. Based on the industry need currently this program was organized for this out going batch of B. Pharmacy. Totally 83 students participated in this training program. All the students actively participated. Upon completion of the program the students were able to understand the following objectives and learning outcomes.

Objectives:

1. Define best practices as they apply to CDM processes.
2. Describe CDM processes from study start-up to database lock.
3. Apply best practice rationale when assessing data collection requirements/instruments.
4. Evaluate the benefits of standardization in establishing CDM processes.
5. Discuss current technology/methods of data collection and associated documentation.

Learning Outcomes:

- FDA guidances, protocol review, and data management plan creation and content.
- Case Report Form Design (CRF/eCRF), and Edit Check Creation.
- Electronic data capture; selecting an application, implementing the system, and study conduct.

- Database validation, data entry processes (EDC/Paper-based Studies), and data standards (CDISC/CDASH).
- Data quality and metrics.
- External Data: Data transfer agreements, patient reported outcomes and laboratory data.
- Safety data management and reporting, serious adverse event reconciliation, and medical coding dictionaries.
- Database lock, clinical data archiving, and data storage.
- Project Management for the Clinical Data Manager including Vendor Selection.

This program was very much informative to the students and their feedback was positive. The Principal Dr. K. Padmalatha thanked Mr. Varaha Kumar and participants for providing this program for the benefit of students.

PROGRAMME OBJECTIVES :

Advances in Pharmaceutical drug delivery technologies enhance drug absorption, efficacy, and patient experience. When combined with appropriate targeting moieties, drug-coated nanoparticles, drug-encapsulating liposomes and nanotubes, and tree-like dendrimers enable organ and tissue targeting. This program was designed to improve the knowledge on the area of novel drug delivery systems and technology.

1. Principle & approaches for development of various advanced drug delivery systems
2. Criteria for selection of drugs and polymers for the development of novel drug delivery systems, their formulation and evaluation
3. Various new technology used in Pharmaceutical industries.

Vijaya Institute of Pharmaceutical Sciences for Women, Enikepadu, Vijayawada organized a add on program on **Advances in Pharmaceutical Drug Delivery and Technology** for M. Pharmacy students by **Dr. B. Ramu**, Professor, Department of Pharmaceutics and **Mr. S. Venkateswara Rao**, Assistant Professor, Department of Pharmaceutics from 27th October 2015 to 07th November 2015. This program was designed to improve the knowledge on the area of novel drug delivery systems and technology. Totally 18 students participated in this training program. All the students were enthusiastic and upon completion of the program they were able to understand the following objectives and learning outcomes.

Objectives

- Understand the principle involved in formulation of various advanced drug delivery systems.
- Understand the criteria for selection of drugs and polymers for the development of novel drug delivery systems, their formulation and evaluation.
- Understand various approaches for development of novel drug delivery systems.

Learning outcomes

- Know the various novel drug delivery systems and their manufacturing techniques.

PROGRAMME OBJECTIVES :

This program introduces the schematics of Methods Development and Validation with a grassroots, conceptual standpoint, based on scientific rationale and a Method by Design approach. The aim is to lead the audience to the understanding, basic elements of analytical method, with a focus on Quality. At the outset, it implores the analytical chemist to grasp an Analytical Method as a process of measurement.

1. To get knowledge about development and optimization of chromatographic methods.
2. Study about importance of system suitability parameters in chromatographic methods.
3. To get up to date with the ICH and US FDA guidelines for the analytical method validation parameters.

Vijaya Institute of Pharmaceutical Sciences for Women, Enikepadu, Vijayawada organized a add on program on **Scientific Approach to Analytical Methods Development and Validation Activities** for M. Pharmacy students by **Dr. B. Ramu**, Professor, Department of Pharmaceutical Chemistry and **Mr. I. Madhu Sudhan Reddy**, Assistant Professor, Department of Pharmaceutical Chemistry from 10/11/2015 to 21/11/2015. This program covered following objectives and learning outcomes.

Objectives

- Get familiar with commonly used analytical methods, purpose, advantages, limits, pitfalls.
- Determine process parameters and controls during the validation of any process (or) system.
- Get familiar with Method Validation and Method transfer: Principles, Common Practice and Potential problems.

Learning outcomes

- It helps in assuring the quality of the product by determining the amount of drug present in given dosage forms.
- Validation deepens understanding the processes and decreases the risk of regulatory noncompliance.

- Simple, precise, accurate, rapid methods can be developed and whether parameters validated are within the acceptance limits or not can be validated.

Totally **18** students participated in this training. All the students actively participated. This program was fruitful to the participants in doing projects, handling the advanced analytical instruments and troubleshooting the problems. The management and Dr. K.
