Research Policy

- Faculty and researchers must take up research which may lead to quality presentations and publications at national and international conferences of repute. Impact factor provided by Thomson Reuters is in consideration and the institution encourages publications in journals indexed in Pubmed, Scopus/Web of Science
- The research must bring in the potential to generate patents, must be of social and commercial use and may also lead to further research
- Research results are considered as one of the criteria in faculty recruitment procedure and promotion along with other academic responsibilities
- The institution shall recruit faculty members who display excellent capabilities and research potential. Publications in journals of high repute plays a major role in the aspect of promotions
- Scientific Research Committee is responsible for all the research activities at the institute, which will be co-ordinated by the respective HoD and other senior members of faculty
- Every researcher must demonstrate high ethical standards of conduct at the time of carrying out their research. They must follow the research ethics and plagiarism is considered a serious offence. Every researcher must have integrity and possess academic honesty, and a breach of this may follow appropriate disciplinary action.
- The institution provides funds to conduct and also to attend seminars/workshops/conferences/faculty development programmes at national and international levels.
- Research Policy may be amended and revised according to the further needs and requirements
- Principal along with the committee will review the output of the research being carried out at the institution periodically, and may suggest required amendments, if any
- The committee meets twice a year and whenever required.
