**Contact Number:** +91 9560970737

**Topics Covered:**

1. Intellectual property rights and case studies from the laboratory to the clinic
2. Practically hands-on patent validity, research activity, and patenting myths

A two-day national level workshop was organized by *Vijaya Institute of Pharmaceutical Sciences for Women*, Enikepadu, Vijayawada with the theme "**Role Of Intellectual Property In Bio-Pharma Industries**" on 01-03-2013 to 02-03-2013. The program was inaugurated by **Prof. T. V. Narayana**, Chairman, Education Division, IPA. On this occasion **Sri. B. S. Appa Rao**, Chairman, SRK Foundation, and chief patron of the workshop delivered the keynote address and spoke on the motive of the workshop. The first technical session was started by **Mr. Ekanth Sareen** with an emphasis on Intellectual property rights and case studies from the laboratory to the clinic, invention, patenting principles, and also international standards of patenting. A patent is an exclusive right

granted by law to applicants / assignees to make use of and exploit their inventions for a limited period of time (generally 20 years from filing). The patent holder has the legal right to exclude others from commercially exploiting his invention. In return for exclusive rights, the applicant is obliged to disclose the invention to the public in a manner that enables others, skilled in the art, to replicate the invention. The patent system is designed to balance the interests of applicants and the interests of society. By the end of the session participants had gained knowledge about the patent process, advantages, and classification of the patent in the afternoon session of the first day.

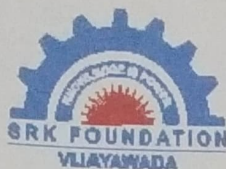

On the second day, **Mr. Ekanth Sareen** and **Mr. Girish Tanwar** explained the practically hands-on patent validity, research activity, and patenting myths. Patents are part of industrial property law and are a formal instrument provided by the public administration to promote innovation, and especially the transfer of technology and knowledge to society. But despite these lofty goals, their reputation is not entirely positive, so it's important to clear up a few questions about the patent system like you can only patent breakthrough ideas, A Patent will deter copycats, My patent is protected worldwide, Anyone can conduct Patentability searches as they are a Walk in the Park and You can get patent protection if any existing patent doesn't disclose your idea.

The valedictory ceremony started with the welcome of chief guests followed by the distribution of certificates to the participants. An overwhelming response was obtained and 124 participants attended the workshop including research scholars, PG, UG students, and teaching staff of various colleges and universities.

### Topics covered:

1. IMRAD Format
2. Plagiarism
3. Practical hands on application of statistical software in result analysis
4. Statistical methods
5. Global Trends in Research: Status & Ethics
6. Art of Writing a Scientific Paper

*Vijaya Institute of Pharmaceutical Sciences for Women*, Enikepadu, Vijayawada organised a National Level Workshop on 21-03-2014 to 22-03-2014 with the theme **Research: Design, Execution and Publication**. The seminar was sponsored by and inaugurated by **Sri. B. S. Appa Rao**, Chairman, SRK Foundation and the Chief Patron of the Workshop. **Dr. A. Rajya Lakshmi**, Scientist, Bio-world Research Technologies, Somajiguda, Hyderabad and **Dr. K. Padmalatha**, Principal, VIPW was the convener of the workshop and took part in the inauguration ceremony. The seminar focused on the Global trends in research and ethics, IMRAD Format, Plagiarism, Art of Writing a scientific paper, presentation of results, selection of topic for research and execution of research work. It is aimed at faculty research scholars, UG and PG students.

The first lecture was delivered by **Mr. S. Venkateswara Rao**, Sr. Asst. Prof on **IMRAD Format**. Research and innovation are critical for national social and economic development. In response to the drive for more economic development, universities are redefining their roles and interactions with society by going from being the traditional

e-mail : vijayapharmacyfw@gmail.com

storehouses of knowledge to becoming interactive knowledge hubs. One way of ensuring that the Universities actually act as knowledge hubs is through promoting institutional visibility by encouraging research publication by students and faculty using internationally recognised scientific writing formats like Introduction, Methods, Results and Discussion, [IMRAD].

Further, an informative and interactive talk was given by **Prof. (Dr). S. Srinivas Kumar**, Director, Research & Development, JNTU Kakinada on **Plagiarism**. In the afternoon session, a lecture on **Statistical Methods for Result Analysis** was delivered by **Mr. V. Srinivas**, Assoc. Professor, VIPW followed by practical hands on application of statistical software in result analysis by **Mr. N. Srinivas**, Lecturer, Dept. of Statistics, Andhra Loyola College, Vijayawada. Statistical methods involved in carrying out a study include planning, designing, collecting data, analysing, drawing meaningful interpretation and reporting of the research findings. The statistical analysis gives meaning to the meaningless numbers, thereby breathing life into a lifeless data. The results and inferences are precise only if proper statistical tests are used. This article will try to acquaint the reader with the basic research tools that are utilised while conducting various studies.

On the second day, **Dr. A. Rajya Lakshmi**, Scientist, delivered a lecture on **Global Trends in Research: Status & Ethics**. Later in the session a demo on **Podium Presentation & Poster Presentation** for the execution of research work done was elegantly explained by **Mr. S. Venkateswara Rao**, Sr. Asst. Prof. The concluding lecture was given by **Prof. (Dr). K. R. S. Sambasiva Rao**, Editor, Journal of Biotechnology & Pharmacy, Dept. of Biotechnology, ANU, Guntur on the **Art of Writing a Scientific Paper**. Later in the session posters were placed for evaluation. In the valedictory session, **Prof. (Dr). P. Venkata Narasaiah**, Director, SRK foundation, delivered the valedictory address, and **Prof.(Dr). K. R. S. Sambasiva Rao**, Editor, Journal of Biotechnology & Pharmacy, Dept. of Biotechnology, ANU, Guntur and **Dr. K. Padmalatha**, Principal of the institution also participated and certificates were distributed to the participants. An overwhelming response was obtained as 267 participants attended the workshop including research scholars, PG & UG students and teaching staff of various colleges and universities.

5. Chronopharmacokinetics
6. Sophisticated Tools used in Pharmacology, Pharmaceutics, Pharmaceutical Analysis & QA Laboratories

A national workshop was organised by Vijaya Institute of Pharmaceutical Sciences For Women, Enikepadu, Vijayawada during 08-04-2015 to 09-04-2015. **Prof. Dr. S. Satyanarayana**, Former Principal, University College of Pharmaceutical Sciences, Andhra University, Vizag, **Dr. K. Purna Nagasree**, DST & Women Scientist, University College of Pharmaceutical Sciences, Andhra University, Vizag and **Dr. Sreedhara Chaganti**, Head, Bioanalytical Division, Laila Nutraceuticals, Vijayawada were the resource persons. **Prof. Dr. K. Padmalatha**, Principal was the convener of the workshop; **Mr. S. Venkateswara Rao** and **Dr. Suman Pattanayak** were the coordinators of the workshop.

The programme was inaugurated by Prof. Dr. S. Satyanarayana, Dr. K. Purna Nagasree, and Prof. Dr. K. Padmalatha, Principal. The workshop mainly focused on recent developments in pharmacology research, chrono-pharmacokinetics, and practice of simulated animal experiments, regulated bio-analysis, quantitative application HPLC and practice on sophisticated tools used in pharmaceutics, pharmaceutical analysis in QA laboratory.

The first session of first day was started by an experienced and eminent lecture by Prof. Dr. S. Satyanarayana on **Recent Developments in Pharmacology Research** followed by an interactive lecture by Dr. K. Purna Nagasree on **Research Project Promotion Schemes**. Research and development activities are considered as an essential component of higher education because of their role in creating new knowledge and insight and imparting excitement and dynamism to the educational process, as well as make them need based in view of the national requirements. The proposal should include a specific project theme with a clear statement of the objectives, details of equipments and other research facilities proposed to be acquired and the expected deliverables from the project. In the afternoon session practice of simulated animal experiments laboratory sessions were conducted by Mr. A. Jaya Rami Reddy, Asst Prof., Dept. of Pharmacology, VIPW and Mrs. D. Santhi Krupa, Asst Prof., Dept. of Pharmacology, VIPW.

On the second day the morning session was started by a lecture on **Quantitative Application of HPLC** by Dr. Suman Pattanayak, Dept. of Pharmaceutical Analysis. High performance liquid chromatography (HPLC) is an important qualitative and quantitative technique, generally used for the estimation of pharmaceutical and biological samples. It is the most versatile, safest, dependable and fastest chromatographic technique for the quality control of drug components.

Further, a presentation on **Regulated Bioanalysis** by Dr. Sreedhara Chaganti, Head, Bioanalytical Division, Laila Nutraceuticals, Vijayawada. Bioanalytical data are an essential and integrated part of the safety evaluation of new drugs. The process of developing a new drug from drug discovery to drug development typically covers a period of more than 10 years. Bioanalytical support to studies that are part of a drug application file, conducted by guidance from dedicated regulatory bioanalytical guidelines and often conducted under GLP or Good Clinical Practice (GCP), is referred to as regulated bioanalysis. Bioanalysis was becoming hyphenated, for example liquid chromatography-tandem mass spectrometry (LC-MS/MS), with the advantages of increased sensitivity and selectivity.

Later in the session an interactive and informative lecture on **Chronopharmacokinetics** was delivered by Mr. S. Venkateswara Rao, Sr. Asst. Prof, Dept. of Pharmaceutics. Absorption, distribution, metabolism and elimination are influenced by

many different physiological functions of the body which may vary with time of day. Thus, the pharmacokinetic parameters characterising these different steps, conventionally considered to be constant in time, depend on the moment of drug administration. Time of day has to be regarded as an additional variable influencing the kinetics of a drug. Chronokinetic studies have been reported for many drugs. In the afternoon practical session on **Sophisticated Tools used in Pharmacology, Pharmaceutics, Pharmaceutical Analysis & QA Laboratories** was conducted followed by poster presentation and evaluation. The results were declared and prizes were distributed in the valedictory session. An overwhelming response was obtained as 513 participants in the category of research scholars, PG & UG students and teaching staff of various colleges and universities attended the workshop.

## Inaugural Function

You are cordially invited for the Inaugural function of  
A Workshop on  
"Recent Advances in Pharmacy Education & Research"

8<sup>th</sup> April 2015 at 10.00 AM at Seminar Hall, VIPW

Sri. B.S. Appa Rao, B.E.  
Chairman, SRK Foundation

Has kindly consented to Preside over the function

Prof. P. Venkata Narasiah  
Director, SRK Foundation

Has kindly accepted to Grace the Occasion

Prof. Dr. S. Satyanarayana Garu  
Former Principal, University College of Pharmaceutical Sciences,  
Andhra University, Vizag

Has kindly accepted to be the "Chief Guest"

Dr. K. Purna Nagasree  
DST-Women Scientist (WOS-A), University College of Pharmaceutical  
Sciences, Andhra University, Vizag  
As "Special Guest"

## Valedictory Function

9<sup>th</sup> April 2015 at 04.00 pm  
at Seminar Hall, VIPW

Sri. B. Sri Krishna  
Secretary, SRK Foundation

Has kindly consented to Preside over the function

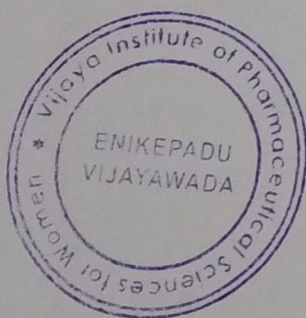

Dr. Sreedhar Chaganti  
Head, Bioanalytical Division, Laila Nutraceuticals, Vijayawada  
Has kindly accepted to be the "Chief Guest"

Dr. K. Padmalatha  
Principal

## Programme Details

9<sup>th</sup> April 2015

- 09.30-10.30 - Quantitative Application of HPLC  
**Dr. Suman Pattanayak**  
*HOD, Dept. of Pharmaceutical Analysis,  
VIPW, Enikepadu, Vijayawada*
- 10.30-10.45 - Tea Break
- 10.45-11.00 - Poster Presentations (Placing of Poster)
- 11.00-12.00 - Regulated Bioanalysis  
**Dr. Sreedhar Chaganti**  
*Head, Bioanalytical Division,  
Laila Nutraceuticals, Vijayawada.*
- 12.00-13.00 - Chronopharmacokinetics  
**Mr. S. Venkateswara Rao**  
*Dept. of Pharmaceutics, VIPW,  
Enikepadu, Vijayawada.*
- 13.00-14.00 - Lunch
- 14.00-15.30 - Practice on Sophisticated Tools used in  
Pharmacology, Pharmaceutics,  
Pharmaceutical Analysis and QA  
laboratories.
- 15.30-16.00 - Poster Evaluation.
- 16.00-17.00 - Valedictory Session

**N.B.:** Presenters are requested to put up the posters till 5.00 pm.
