On 21.11.2016, speaker of the Day 1 programme, **Dr. S. Anuradha Bai**, Assoc. Prof., Department of Pharmaceutical Chemistry, S.N.Vanitha Pharmacy Mahavidyala, delivered a talk on "A Route Map To *In Silico* Tools Used in Drug Design" which emphasized on various softwares in the design of drug molecules, followed by the topic "Molecular Properties Prediction, Synthesis and Docking" at 11:45 am. The talk provided information on how to perform *in silico* docking studies, further she proceeded in her afternoon session on "Molecular Property Based Design and Synthesis of Novel Molecules for Targeted Biological Activity". the lecture disclosed the assessment techniques of the biological activity of compound using *in silico* tools. The faculty interacted with her and expressed that the talks have enriched them with various databases available and their usage.

On 22.11.2016, speaker of the Day 2 programme, **Mr. G. Muthu Bhoopathi**, Asst. Prof., Vijaya Institute of Pharmaceutical Sciences for Women delivered his talk on "An Insight in to Molecular Modelling" at 10 am enlightened the audience on modeling approaches using software followed by "Trend Setting Innovations in Pharmaceutical Chemistry" at 11:45 am where the talk went on to discuss the latest developments in chemistry in the past and present. The talk on "Customization of Clinical Efficacious in Drugs and its Paradigm" the session focused on utilization of computer tools in predicting the clinical efficacy of drug molecules. The faculty shared the view that computational designs and prediction techniques on clinical efficacy would be very helpful in day-to-day research.

On 23.11.2016, speaker of the Day 3 programme, **Dr. G. Surendra** delivered a talk on "A Contemporary Approach to Molecular Docking" at 10:00 am. He presented the molecular properties and effects in docking studies, followed by his talk in "Computational Drug Design" which explained about the interaction of structure of the molecule with receptor structure in designing studies. In the afternoon session the talk was on "Organic Chemistry – its importance in industry and health", in which he discussed the impact of organic chemistry in industrial synthesis especially in health care pharmaceuticals. Faculty stated that the topics are very much helpful.

### Report

**Name of the Programme:** One day training programme on "Fire Safety"

**Resource Person:** Mr. G. Narayana, Kings Institute of Fire and Safety Engineers

**Date:** 28<sup>th</sup> October 2016

One day training programme on "Fire Safety" was conducted in Vijaya Institute of Pharmaceutical Sciences for Women on 28<sup>th</sup> October 2016. All the non-teaching staff members attended the programme. The training programme was aimed at mastering the non-teaching staff on operation of fire safety equipment's used in laboratories. The programme made them aware of different techniques of fire extinguish ion, handling the equipment's, safety measures etc. The non-teaching staff members expressed that the programme let them lift their confidence levels in such a way that they were made alert, cautious and can act smartly and quickly in emergency situation avoiding all kinds of hindrances and inhibitions mentally in order to safeguard from fire hazards.

A three-day faculty development programme was organized by *Vijaya Institute of Pharmaceutical Sciences for Women*, Enikepadu, Vijayawada with the theme **"BIostatISTICS IN PHARMACEUTICAL PRODUCT DEVELOPMENT"** on 23<sup>rd</sup>, 24<sup>th</sup> & 25<sup>th</sup> January 2017. The programme started with guest introduction by Mrs. D. Santhikrupa.

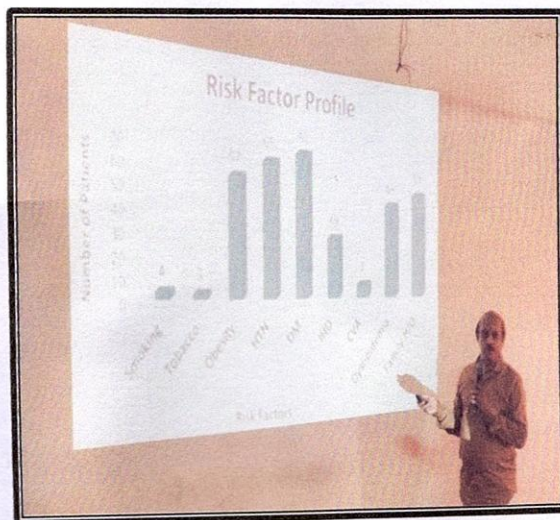

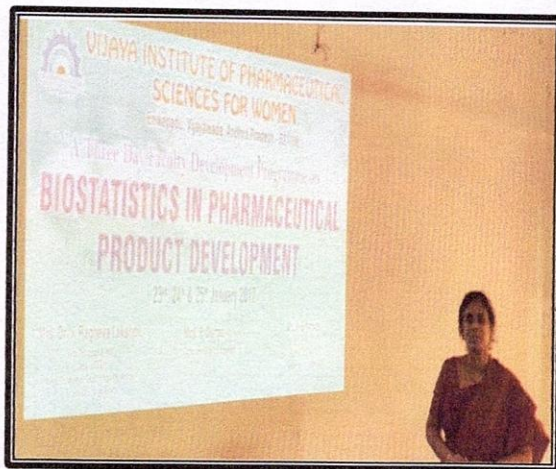

On 23.01.2017, the guest speaker of the Day 1 programme delivered talks on "Biostatistics in developing treatment for diseases and effects" followed by practice and interactive session before lunch. The talk continued in the afternoon session after lunch on "Biostatistics in Refinement of Experimental Designs" and ended up with a practice and interactive session. Faculty expressed that talk by Dr. V. Raghava Lakshmi, made them understand the complications of experimental design in biostatistics.

On 24.01.2017, the guest speaker of the Day 2 programme presented a power point on Biostatistics & Clinical Data, questionnaires and surveys for collecting data on human communities, process of converting data in to information and ended up with a practice session. The sessions handled by Mrs. P. Durga, rendered the effective use of data conversion in biostatistics.

On 25.01.2017, the guest speaker of the Day 3 programme delivered talks on "Biostatistics in Pharmacology, Biostatistics in Epidemiological Studies" followed by a practice and interactive session both in the morning and afternoon. Faculty expressed that the sessions delivered by Mr. V. Srinivas made them aware of epidemiological studies and surveys in biostatistics. In the concluding remarks session Dr. K. Padmalatha expressed that the programme helped teachers to gain knowledge in biostatistics as a useful tool in imparting significance to the experimental data to their routine data calculations in lab experimentation as well as in research.
