**INTERNATIONAL JOURNAL OF DEVELOPMENT RESEARCH**

International Journal of Development Research is a international journal dedicated to the latest Research. All articles are made freely and permanently accessible online immediately after publication. All submitted articles undergo a fast but rigorous peer-review procedure, with prompt publication. Authors publishing with academic research journals retain the copyright to their work. Authors have the opportunity to publish short communications, full-length research, reviews, academic research journals offers very affordable article-processing fees. We provide worldwide research publications. Our dedicated technical and editorial team members ensure the quality of the published research articles are high. We have very reputable and dedicated editorial board members from different academic fields which ensure the quality and review standards according to the international research published articles are provided online with free access to provide the academic community with latest and quality research free. Editorial Publishing Policies The following editorial and publishing policies Open Access Agreement Submission of related manuscripts Confidentiality Corrections and Additions Publication Ethics

Call for Paper, paper Publication, Research Paper.

**World's Largest Indexing of Scholarly Journals**

international multi-disciplinary journal, which covers all aspects of scientific research. We primarily aim to bring out the research talent and the works done by scientists, academia, practitioners, scholars, post graduate students of science so that fellow researchers can get benefit from the research done. This journal aims to cover the scientific research in a broader sense. It is also aimed to provide a platform for the researchers to publish in a shorter of time (normal duration of submission to publication will be within 15 days) enabling them to continue further. The journal covers all science disciplines, all advanced scientific disciplines, newer research areas such as biotechnology, environmental biotechnology, plastics, composite research, nanotechnology, nanobiotechnology, etc. AJST aims to publish only quality research papers, which are peer reviewed by panel of reviewers; the journal also aims to reduce the review time considerably by adopting various measures. All science and engineering disciplines Pure and applied sciences including biology, zoology, genetics, fishery and other areas. Applied Engineering/ sciences such as Biotechnology, Nanotechnology, etc Application of scientific inventions for engineering purpose Advances in engineering and technology Any new methodology to support engineering products Any new area which has potential to be published in an International journal Areas related to computers and communication. Scientific research related to applied medical sciences.
